

# EDITORIAL CALENDAR

|                | Feature                                                                                                                                                                | Ad Close   | Material Due |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|--------------|
| January 2024   | Glass Materials for Photonics, Hyperspectral Imaging, Infrared Lasers, High-Power Optics, Quantum Communications, AI/Machine Learning, Beam Profiling/Characterization | 12/20/2023 | 1/5/2024     |
| March 2024     | Annual Laser Market Review & Forecast, Semiconductor Lasers, Quantum Lasers, Additive/3D Printing, LiDAR, Beam Profiling, Silicon Photonics, Terahertz Lasers          | 2/22/2024  | 3/4/2024     |
| May 2024       | Chip Scale Lasers, Filters/Gratings, Lenses, Integrated Optics, Metasurfaces/Metalenses, Optical Coatings, Diffractive Optics                                          | 4/26/2024  | 5/8/2024     |
| July 2024      | Optical Design, High Energy Laser Weaponry, Quantum Materials, VCSELs, Photodiodes, Laser Cutting and Drilling, Tunable Lasers                                         | 6/28/2024  | 7/8/2024     |
| September 2024 | Optical Metrology, Sensing/Sensors, Spectroscopy, Software and Simulations, Optical Materials, Pulsed Lasers, Photonic Crystals                                        | 8/23/2024  | 9/2/2024     |
| November 2024  | Beam Profiling, Interferometry, Microscopy, High-power Lasers for Fusion, Photovoltaics, Micromachining, Bioimaging                                                    | 10/25/2024 | 11/5/2024    |
| January 2025   | Fiber Lasers, Image Sensors, Scientific Imaging, Three-dimensional (3D) Imaging, High-speed Cameras, Hyperspectral/Thermal Imaging, Low Light Detection & Imaging      | 12/20/2024 | 1/6/2025     |
